## ■ 2nd RPG MAKER UNITE Major Update Released!

The first major update for RPG MAKER UNITE was released on July 31st, 2024, and it included updates to use of Unity Scenes, improved post processing support, an event search function, and many other improvements! We received a lot of positive feedback for it, but we didn't stop there!

After taking everyone's feedback and requests into consideration, today on January 16, 2025, we're very happy to release this second major update!

WebGL support for browser play, UniversalRenderPipeline (URP) support, minimap functionality, and lots of other useful improvements are included!

Please see the official site's update for the full information on this new version 1.2.0 release!

## ■ RPG Maker Asset Contest

In addition to all the other news, we're also happy to announce our first RPG Maker Asset Contest!

As with the game jam, it will be held on itch.io, and will be open to graphics and sound creators. Content should be designed to be compatible with RPG Maker MZ, RPG Maker MV, or RPG MAKER UNITE. Additional details will be released in the coming days!

## ■ About RPG MAKER UNITE:

RPG MAKER UNITE continues the Maker series longstanding tradition of being a noncoding game development platform for developers of all skill levels!

Thanks to Unity's ability to output games to a wide variety of platforms, including mobile, RPG MAKER UNITE allows our creators to reach players on their platforms of choice!

"By reducing the hurdles for game developers, we want everyone who dreams of being a game developer to make it a reality": this is the passion that drives RPG MAKER UNITE!
